

# Sales by invoice

A general report of all your sales during a given period rolled up by invoice. Elements like Gross Price, Discount Total, Net Price, Sales Tax, Total Price are aggregated totals for all elements in the invoice.

If using Delivery Date, the report uses that last Delivery Date for any line item on that invoice (e.g. If 2 items were delivered on January 1st and a 3rd item was delivered on January 5th, the Delivery Date for the report will say January 5th).
